Professional Summary

Results-driven Software Developer with a strong background in building scalable web and mobile applications. Proficient in frontend development with expertise in modern frameworks and tools. Skilled at solving complex technical problems, collaborating in cross-functional teams, and delivering high-quality software solutions.

Professional Experience

Software Developer | AVZDAX | 2025

- Designed and implemented responsive web applications using React and Node.js.
- Optimized database queries and improved application performance.
- Collaborated with product managers to define technical requirements and milestones.
- Integrated third-party APIs for endpoint connection and user authentication.
- Collaborated with a small team of developers and conducted code reviews to ensure best practices.

Frontend Developer | Freelance | 2024 - 2025

- Developed interactive user interfaces using React and Tailwind CSS.
- Worked closely with designers to transform mockups into functional applications.
- Implemented state management using Redux for scalable frontend applications.
- Improved SEO and accessibility compliance of web applications.
- Collaborated in Agile sprints to deliver features within deadlines.

Frontend Tutor | Real Awesome | 2023 - 2024

- Tutored students in frontend development concepts including HTML, CSS, and JavaScript
- Guided learners through debugging sessions and helped them understand common UI/UX issues.
- Assisted in building responsive web interfaces and integrating APIs into frontend applications.
- Created and maintained documentation to explain coding best practices and project workflows.
- Tutored students on implementing layout systems using Grid and Flexbox.

Education & Certifications

- B.Sc. Metallurgical and Materials Engineer – University of Lagos, 2025- Present
- Certified React Developer – Coursera
- Frontend Web Development Certification – Coursera.
- HTML, CSS, JavaScript – Frontend Masters.

Skills

- Programming Languages: JavaScript, Python, React-Native
- Frontend: React, Redux, Tailwind CSS, Zustand, Typescript
- Backend: Node.js, Express, MongoDB
- Version Control: Git, GitHub
- Problem Solving & Debugging

Featured Projects

- **EdTech AI Prep Platform (React, JavaScript, Tailwind CSS, Node.js, AI):** Developed an all-inclusive exam preparation platform with interactive CBT tests and an AI companion that tracks performance, identifies weak areas, and provides personalized study recommendations.
- **Waste Management & Cleanup Platform (React, JavaScript, Tailwind CSS, Node.js):** Built a community-driven website for users to report waste locations, organize cleanups, and promote environmental awareness with real-time reporting and interactive features.
- **TrustBridge Data Access Platform (React, JavaScript, Tailwind CSS):** Developed a web platform allowing users to monitor and manage how companies use their personal data, ensuring transparency, user control, and compliance with privacy principles.
- **Responsive Calculator App (HTML, CSS, JavaScript):** Created a fully responsive calculator supporting addition, subtraction, multiplication, and division, with a theme-switch feature for enhanced accessibility and usability across devices.
- **Weather Application (HTML, CSS, JavaScript):** Built a weather app consuming public APIs to display real-time weather data with temperature, description, and icons, while handling loading states and error conditions gracefully.
- **Linear.app Homepage Recreation (HTML, CSS, JavaScript):** Recreated the Linear.app homepage with responsive layout, custom designs, video integration, smooth transitions, and interactive elements to replicate functionality and aesthetics.

Achievements

- **Hackathon Winner (2x):** Secured first place in two hackathons by developing innovative software solutions.
- **President, Empowerment Program:** Led initiatives to empower participants, manage activities, and drive program impact.
- **Participant, UNILAG Engineering Coding Challenge:** Competed in a university-wide coding challenge, demonstrating problem-solving and technical skills.
